

file - benzene

November 29, 1978

Mr. Harvey A. Epstein
Commissioner of Labor and Industry
203 East Baltimore Street
Baltimore, Maryland 21202

Dear Mr. Epstein:

Enclosed is the form you requested in an effort to obtain knowledge of the locations and uses of carcinogens in Maryland workplaces. Currently, the only chemical on your list of carcinogens that we supply in the state of Maryland is benzene. Benzene is shipped from one of our refineries in a chemical tanker. The shipments are intermittent and usually on a spot basis. Most of our benzene is supplied in a regular fashion by benzene manufacturers that I am sure will also be reporting this information to you.

Sincerely,

David A. Kuhn
Director of Biomedical and
Environmental Affairs

Gentlemen:

In an effort to obtain knowledge of the locations and uses of carcinogens in Maryland workplaces, the Maryland Division of Labor and Industry would like to request your cooperation. If you supply any of the chemicals on the attached list to companies doing business in the State of Maryland, we would appreciate your completing the enclosed form(s).

Your cooperation in this endeavor will be greatly appreciated. The information obtained may make it unnecessary for the State to consider a massive registration activity.

Sincerely,

Harvey A. Epstein
