Subject: Shanghai Tech Budget Committee... revised Fudan budget proposal

Stuart -

As you are likely aware, the Shanghai Health Study currently lacks one contract: Fudan University clinical lab support for the Case-Control study. This work is currently supported under a interim contract, which will expire after Dec 2003.

Following discussions at Asilomar, Dr. Fu has submitted the attached budget proposal. This \$230K budget reflects a modest increase over the original 2001 \$193K proposal (due to changes following SRP recommendations), but is significantly less than the earlier revised budget (\$661K) which we received earlier.

The Fudan budget will become an attachment to Otto Wong's "Case Control" proposal; Otto has reviewed and endorsed this latest version, which looks quite reasonable to me as well.

Please advise how you would like for me to progress this item for Consortium review and endorsement...

Best Regards - Bruce.

Subject: ??: Thank you!

Dear Bruce

Thank you for your prompt response. I am sorry that I forgot to discuss the issue of our contract with you when we were in Asilomar. After coming back to Shanghai, I discussed our estimated expenses of the case control study with Dr. Otto Wong who was in Shanghai at that time. I made a little changes based on the final estimate expense that you sent to me. One is to add a small sum of fee for some activities of negotiation and communicating for strengthening relationship with directors of hospitals except for the money paid to coordinators in the hospitals. Another one is to add some fee to that of copying and postage as office supply. Because the office supply is not limited to copying and postage but it is difficult to indicate every item, I put them together as sum of office supply. Last one is about the transportation. It should include local and long transportation.

Herewith pls find the attachment of the modified estimated expense for your reference.

With kind regards

Fu Hua

Ö÷¼ä: Thank you!

Dear Dr Fu -

Thank you very much for your kind words. Lorraine and Matt have returned to California to host more meetings this week, but I suspect that these sessions will not provide the same level of scientific enjoyment which was contributed by your presentation (and those of your colleagues) at Asilomar. We were truly honored by your willingness to travel so far to participate in this conference.

Also, when you have a moment, please let me know how the Fudan contract proposal for Case-Control support is progressing, and if I may provide any assistance -- perhaps with review of a draft.

With best regards - Bruce

Subject: greeting from Fu Hua

Dear Lorraine, Bruce and Matthew,

I was very pleased to attend the meeting in Asilomar in last month. It was good meeting which you contributed a lot. Thank you very much for your kind hospitality.

With kind regards
