

ANSWER:

See Answers to Interrogatory Nos. 6, 16 and 21, which are incorporated herein as if fully rewritten. Warner Electric Brake & Clutch Company manufactured a variety of different electric wheel brakes and related parts, electric clutches, electric brakes and electric clutch brakes for a variety of applications. Some, but not all, of such products at one time contained friction materials that contained asbestos. If Plaintiffs will identify a specific Warner Electric product or part number, Defendant will attempt, with Buyer's cooperation, to provide the identity of the friction supplier and the supplier code number for the product from original engineering records in Buyer's possession.

Products manufactured by Warner Electric Brake & Clutch Company were sold under the Warner Electric name, subject to certain limitations relating to possible trademark infringement involving another company with the name Warner Electric.

Some packaged electric clutches and electric brakes were identified as "Electro". Not all Electro clutches and brakes contained friction materials. After being acquired by Dana, other product lines previously not related to Warner Electric Brake & Clutch Company were sold by the Warner Electric Division with the name "Formsprag Clutches & Brakes" and "Wichita Clutches". See Answer to Interrogatory No. 6, which is incorporated herein as if fully rewritten. Defendant will separately provide information about those product lines.

Not all clutches, brakes and clutch/brakes contained friction materials.

See Answer to Interrogatory No. 21 for Tow Craft products.
