DIRECTOR OF HEALTH AND SAFETY

November 12, 1959

Robert A. Kehoe, M. D., Director
Kettering Laboratory of Applied Physiology
University of Cincinnati College of Medicine
Eden Avenue
Cincinnati 19, Ohio

Dear Bob:

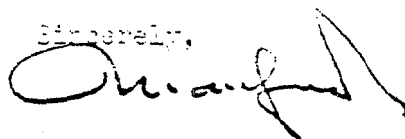

This is in answer to your letter of October 29th, on which, after discussing it with Dr. Radtke and Mr. Ziegfeld, I have been sitting while matters of more immediate moment had attention.

It would now be too late to get any item of the probable size into our 1960 budget, but we would certainly want to get something under way in 1961, and as you make it quite clear that there would be a delay of at least two years, it seems that we have no choice but to do some looking around.

As to the subject discussed in your penultimate paragraph, this is not the sort of thing that our organization goes in for. I would think it possible, however, that you could interest the National Lead Foundation. The approach would doubtless be through Mr. Joseph A. Martino, president of the National Lead Company, with main stress on the educational aspects of your proposed expansion.

I have heard about the Los Alamos-Santa Fe jamboree from several sources, and have the impression that "a good time was had by all."

Sincerely,

cc: Dr. Schrade Radtke
Dr. Robert Ziegfeld
