SUBJECT Pre-employment Examinations

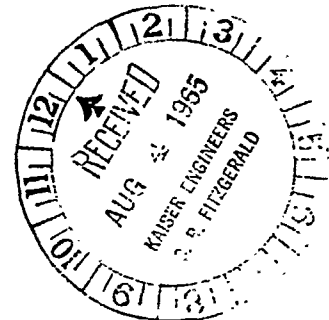

I have received the attached memo from Dr. John Beatty and I believe it is self-explanatory.

In our experience with domestic pre-employment physical exams in many parts of the United States, the \$35 fee of Dr. Silverman's does seem excessively high, or else his examination is considerably more thorough than we would normally require for domestic employment. If you find it necessary to continue to use Dr. Silverman, I would concur with Dr. Beatty's suggestion that you talk with him concerning a less comprehensive examination. An alternative would be to use Dr. Ralph Cotter as suggested in the attached memo.
