Dear Rodney A Bollich:

CONGRATULATIONS

Based on the information supplied in your response to our 1990 SPI Safety Award Program, I am pleased to award you the attached:

ACHIEVEMENT SAFETY AWARD

An Achievement Safety Award recognizes plants that have operated without an injury or illness resulting in lost-time or restricted work activity.

Enclosed is a recap of the data you submitted for your manufacturing site together with a summary report for all participants, looking at the industry both as a whole and by type of plant, as well as a news release on our Safety Award Program listing all the winners.

Again, thank you for your participation and I look forward to your participation again next year.

Sincerely,

A handwritten signature in dark ink, appearing to read 'RH' followed by a flourish.

Richard H. LaLumondier
