Onderwerp: Re: Second Open Ad-Hoc Belgium REACH Committee (BCR) on uPFAS restriction

Dear

I couldn't join, but my new colleague will be present: @bblv.be). As it would be quite new to him, we also managed to have from ClientEarth on board. We can still discuss if we can do 1 or 2 presentations, but our idea was to do one and have a discussion with 2 people from NGOs in the room.

Kind regards,

Op wo 12 jul 2023 om 16:21 schreef Reach (SPF Santé Publique - FOD Volksgezondheid) <@health.fgov.be>:

Dear BCR stakeholder,

We have received your request for having a discussion on the uPFAS restriction within the BCR framework.

For this reason we are organizing a second Ad-Hoc Open BCR discussion on PFAS to give you the opportunity to have some discussion on this subject.

Because of the holiday period we are unfortunately not very flexible for setting a date, the best available date (considering the end of the Public Consultation of the restriction end of September) to organize this meeting would be **06 September 09:30-13:00**.

Could you please confirm that you will be attending this meeting? Please do so by sending a mail to @health.fgov.be with the contact details of who will be attending this meeting.

More details on practicalities (presentation time, location, etc.) will follow later.

Kind regards,

Attaché Risicobeheersing van Chemische Producten
