

Lead wire box Draft (2/86) + Supporting Documents

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
Office of Air Quality Planning and Standards
Research Triangle Park, North Carolina 27711

February 14, 1986

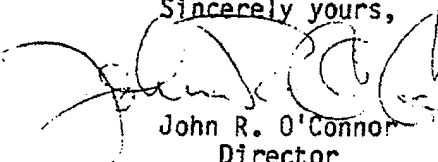

Dear Interested Citizen:

Enclosed is a copy of the revised draft OAQPS staff paper, Review of the National Ambient Air Quality Standards for Lead: Assessment of Scientific and Technical Information. In addition, you will also find a copy of the draft report Estimating the Risks of Lead-Induced Health Effects and copies of two reports pertaining to the related exposure analysis. The documents will be reviewed by the Clean Air Scientific Advisory Committee (CASAC) for scientific and technical adequacy at a public meeting on March 11-12, 1986. We will be pleased to accept written comments on them through May 12. Your comments should be submitted to: Jeff Cohen, MD-12, Environmental Protection Agency, Research Triangle Park, North Carolina 27711.

Due to budget constraints, we are unable to provide multiple copies. Therefore, we encourage organizations to duplicate and distribute copies to their various members.

For further information on the draft staff paper, please contact Jeff Cohen (919-541-5655).

Sincerely yours,

John R. O'Connor
Director
Strategies and Air Standards Division
