Mr. H. W. Speicher, Administrator
Westinghouse Electric Corporation
Industrial Hygiene Laboratory 2-8-46
East Pittsburgh, Pennsylvania 15112

Dear Mr. Speicher:

I am returning herewith your questionnaire concerning industrial hygiene information for our fire-resistant hydraulic fluid, Pydraul 312.

There is enclosed also a summary of range-finding animal toxicity data comparing Pydraul 312 with several of our other Pydraul fluids--some of which I believe your company has used in the past.

If I can be of any further assistance, please let us know.

Very truly yours,

R. Emmet Kelly, M.D.
Medical Director

RMK:cjs /EPW
