

(Drislane - Purcell)

1 completely by the time I left or not. But the OSHA
2 regulations permitted five, ten at one time, five, two, one,
3 0.1, so apparently there were other people who had feelings
4 that some exposure levels were permissible.

5 Q Did you equate permissible with safe?

6 MR. FRIESTEDT: Objection to form.

7 A No, I did not. I'm -- I feel if they said
8 permissible, they must be safe based of the studies that
9 NIOSH must have made to go and feed OSHA.

10 Q Isn't it true that the language of OSHA indicates
11 that there is a significant risk to workers exposed at the
12 permissible exposure level?

13 MR. FRIESTEDT: Objection to form.

14 A I don't doubt what you say is true. I don't
15 recall all this stuff. I have been out of the business for
16 several years now.

17 Q Let me direct your attention to a document I would
18 like to mark as JJ.

19 (Exhibit JJ, 6/10/75 Weaver Letter, marked for
20 identification.)

21 BY MR. PURCELL:

22 Q It's letter to you from Mr. Weaver dated June 10,
23 1975. It says, "Dear Ed, Recently I observed the showing of
