Proposal for new Dust System

B-2249-J

JSZ010

Sheet

February 13, 1945

War Production Board
20 Washington Place
Newark 2, New Jersey

Attention: Mr. Merel Leonard

Gentlemen:

We are attaching hereto Form WPB-617 application requesting priority assistance and authorization to install adequate dust collecting system in our Magnesia and Superex Insulation Department.

Because of the bad dust condition in the above department, it is necessary to make alterations to two existing systems in two of the three production centers covered by this application, and to install a new system in the third center.

This department is working twenty-four hours a day, six days per week and approximately seventy-five percent of its production is made for the Army, Navy, Maritime and Lend Lease. The balance is produced for indirect war industries, such as: Railroads, Chemical, Iron and Steel. Because of the dusty condition, it is difficult to keep men on the job. The labor department has requested that this condition be eliminated immediately.

In view of the above facts, we trust that this application may be approved.

Very truly yours,

JOHNS-MANVILLE CORPORATION

2. ☐ AMENDMENT TO PREVIOUS AUTHORIZATION. GIVE SERIAL NO. _____ AND DATE OF ISSUANCE _____

PRIMARY DIVISION OR AGENCY

SPONSORING AGENCY (If Any)

NAME AND ADDRESS OF APPLICANT (Street, City, State, Zone, County)

LOCATION OF PROJECT (Include County and Township)

INSTRUCTIONS - Submit number of copies as indicated on Instructions Sheet. READ SEPARATE INSTRUCTIONS CAREFULLY BEFORE FILLING OUT FORM.

SECTION I - TO BE COMPLETED FOR ALL PROJECTS - *(For projects costing less than $25,000, excluding cost of land, and requiring no equipment, complete this section only.)*

A. DESCRIBE THE PRINCIPAL SERVICES TO BE RENDERED OR PRODUCTS TO BE MANUFACTURED OR PRODUCED.

B. WHAT IS THE RELATIONSHIP OF THIS PROJECT TO WAR PRODUCTION, ESSENTIAL CIVILIAN NEEDS, OR PUBLIC HEALTH AND SAFETY.

C. GIVE SPECIFIC REASONS WHY THE PROJECT IS SO URGENT THAT IT CANNOT BE DEFERRED FOR THE DURATION OF THE WAR.

D. IF A MANUFACTURING PROCESS IS INVOLVED, GIVE BRIEF DESCRIPTION OF THE PROCESS INCLUDING A GENERAL DESCRIPTION OF THE TYPE OF EQUIPMENT REQUIRED.

E. STATE WHETHER THIS IS A NEW INDEPENDENT PROJECT OR AN ALTERATION OR AN ADDITION TO AN EXISTING STRUCTURE OR INSTALLATION.

F. GIVE A CLEAR CONCISE DESCRIPTION OF THE CONSTRUCTIONS OR INSTALLATIONS INVOLVED INCLUDING:

(1) GENERAL LAYOUT *(Project blocks and relation of structures)*

(2) DESCRIPTION OF STRUCTURES, GIVING TYPE OF CONSTRUCTION (MASONRY, REINFORCED CONCRETE, STEEL, TIMBER, ETC.). SUBMIT A PLAN OR SKETCH SHOWING PRINCIPAL DIMENSIONS.

G. LIST EXCEPTIONS TO THE CONSTRUCTION LIMITATIONS (SCHEDULE A TO CMP REGULATION 6) REQUIRED FOR THE PROJECT, INCLUDING MATERIAL OR PRODUCTS RESTRICTED BY APPENDIX I AND EQUIPMENT IN APPENDIX II FOR WHICH SPECIFIC JUSTIFICATION MUST BE GIVEN. SHOW FOR EACH ITEM QUANTITIES REQUIRED, USE TO WHICH THE MATERIAL OR EQUIPMENT WILL BE PUT AND SUFFICIENT REASON TO ESTABLISH THE NECESSITY FOR THE REQUIRED USE IN VIEW OF THE SHORTAGE OF SUCH MATERIALS AND EQUIPMENT.

H. IF YOU HAVE MADE ANY OTHER APPLICATION OR PROPOSAL RELATED TO THIS PROJECT OR ANY PART THEREOF STATE: NAME OF AGENCY AND ADDRESS TO WHICH APPLICATION OR PROPOSAL WAS SUBMITTED AND DATE; ACTION TAKEN, AND DATE.

I. WILL PUBLIC UTILITY SYSTEMS BE REQUIRED TO CONSTRUCT ANY UTILITY SERVICE EXTENSIONS OR OTHER FACILITIES TO SERVICE THIS PROJECT. IF ANSWER IS "YES", SEE INSTRUCTIONS UNDER "SUPPORTING PAPERS TO BE FILED".

ELECTRIC POWER ☒ YES ☐ NO GAS ☐ YES ☒ NO WATER ☐ YES ☒ NO SEWER ☐ YES ☒ NO

AUTHORIZATION TO BEGIN CONSTRUCTION AND/OR ASSIGNMENT OF ALLOTMENT SYMBOL AND PREFERENCE RATING FOR FACILITIES

(Not valid unless signed by WPB Recording Secretary)

EXPIRATION DATE _____

AUTHORIZATION - YOU ARE HEREBY AUTHORIZED, SUBJECT TO THE CONDITIONS DESCRIBED BELOW:

1. TO CONSTRUCT THE PROJECT DESCRIBED IN THIS APPLICATION.
2. TO INSTALL APPROVED MACHINERY AND EQUIPMENT
3. TO USE THE ALLOTMENT SYMBOL P-8 AND PREFERENCE RATING _____ TO PURCHASE APPROVED MATERIALS, MACHINERY AND EQUIPMENT.

CONDITIONS - THIS AUTHORIZATION IS SUBJECT TO THE PROVISIONS OF DIRECTION 2 TO CMP REGULATION 6 AND SCHEDULE A TO CMP REGULATION 6 WHICH ARE ATTACHED AND MADE PART OF THIS AUTHORIZATION, AND TO OTHER APPLICABLE WPB ORDERS AND REGULATIONS AND TO THE FOLLOWING SPECIFIC CONDITIONS:

1. THE WAR PRODUCTION BOARD IN ISSUING THIS AUTHORIZATION RELIED ON THE STATEMENTS AND REPRESENTATIONS MADE BY THE APPLICANT IN THE APPLICATION. FAILURE TO ADHERE BY THESE STATEMENTS AND REPRESENTATIONS CONSTITUTES A VIOLATION OF THIS AUTHORIZATION AND GROUNDS FOR ITS IMMEDIATE CANCELLATION. IN ADDITION, FAILURE OF THE APPLICANT TO ADHERE BY ANY OF THE CONDITIONS IMPOSED IN THIS AUTHORIZATION CONSTITUTES GROUNDS FOR ITS IMMEDIATE CANCELLATION.
2. UNLESS CONSTRUCTION IS STARTED OR INITIAL EQUIPMENT IS INSTALLED, WITHIN _____ DAYS AFTER THE ISSUANCE DATE OF THIS AUTHORIZATION, THE AUTHORIZATION TO CONSTRUCT OR ACQUIRE FACILITIES AND THE RIGHT TO USE THE ALLOTMENT SYMBOL AND PREFERENCE RATING IS AUTOMATICALLY REVOKED. APPROVAL OF THE WAR PRODUCTION BOARD MUST BE SECURED FOR EXTENSION OF TIME OR REINSTATEMENT OF THE AUTHORIZATION.
3. NO DEVIATIONS FROM THE PROVISIONS OF APPENDIX A OF SCHEDULE A TO CMP REGULATION 6 ARE PERMITTED.

Proposal for new Dust System

8-264-5-1

JSZ010

A. The principal service to be rendered by this project is to eliminate a very bad dust condition in the area where reclaimed magnesia dust is dumped and stored to be reused in the process of shaping magnesia products. When the hoppers in which the reclaimed dust is stored are emptied, dust billows up into the area which is enclosed and presents a very unhealthy condition for the men who work in this area.

B. This project will eliminate a health hazard.

C. The workers in this area have registered numerous complaints & are very dissatisfied.

D. No mfg process involved.

E. This is an addition to an existing installation.

F. See print attached

G. 1000 B.F.M - T & G yellow pine will be needed to extend existing wooden hoppers for this project

notice. It is due to the quality of the document being filmed

Proposal for new Dust System
B-2691-5

JSZ010

Band saw dust control

A. The present dust system for band saws now serves 3 band saws, 2 circular saws and 1 jig saw. The system was designed originally for 2 band saws, the exhaust fans has sufficient capacity of 12,000 cfm to operate with portable dust exhaust all the dust created by these saws.

B. The project will eliminate any dust condition that now exists due to pipes clogging up and the pan type dust collector arching at the seams and letting dust enter into the room. When the system is completed the system must be cleaned out so no dust will be drawn away from the saws creating a much worse condition than now exists due to insufficient capacity of system.

C. The project must be taken care of immediately due to company policy of removing all health and accident hazards that may endanger the health or welfare of its employees.

D. The manufacturing process is not impeded only removing the dust created in the manufacturing process of removing wood pieces and sawdust chips.

E. Should be an alteration to an existing installation by increasing the size of pipes and fans, the exhaust will be a true cubic feet per minute capacity

INSTRUCTIONS - Submit number of copies as indicated on Instructions Sheet. READ SEPARATE INSTRUCTIONS CAREFULLY BEFORE FILLING OUT FORM.

SECTION I - TO BE COMPLETED FOR ALL PROJECTS - *(For projects costing less than $33,000, excluding cost of land, and requiring no equipment, complete this section only.)*

A. DESCRIBE THE PRINCIPAL SERVICES TO BE RENDERED OR PRODUCTS TO BE MANUFACTURED OR PRODUCED.

B. WHAT IS THE RELATIONSHIP OF THIS PROJECT TO WAR PRODUCTION, ESSENTIAL CIVILIAN NEEDS, OR PUBLIC HEALTH AND SAFETY.

C. GIVE SPECIFIC REASONS WHY THE PROJECT IS SO URGENT THAT IT CANNOT BE DEFERRED FOR THE DURATION OF THE WAR.

D. IF A MANUFACTURING PROCESS IS INVOLVED, GIVE BRIEF DESCRIPTION OF THE PROCESS INCLUDING A GENERAL DESCRIPTION OF THE TYPE OF EQUIPMENT REQUIRED.

E. STATE WHETHER THIS IS A NEW INDEPENDENT PROJECT OR AN ALTERATION OR AN ADDITION TO AN EXISTING STRUCTURE OR INSTALLATION.

F. GIVE A CLEAR CONCISE DESCRIPTION OF THE CONSTRUCTIONS OR INSTALLATIONS INVOLVED INCLUDING:

(1) GENERAL LAYOUT *(Project limits and relation of structures)*

(2) DESCRIPTION OF STRUCTURES, GIVING TYPE OF CONSTRUCTION (MASONRY, REINFORCED CONCRETE, STEEL, TIMBER, ETC.). SUBMIT A PLAN OR SKETCH SHOWING PRINCIPAL DIMENSIONS. Well house

G. LIST EXCEPTIONS TO THE CONSTRUCTION LIMITATIONS (SCHEDULE A TO WAR REGULATION 6) REQUIRED FOR THE PROJECT. ITEMS INCLUDING MATERIAL OR PRODUCTS RESTRICTED BY APPENDIX I AND EQUIPMENT IN APPENDIX II FOR WHICH SPECIFIC JUSTIFICATION MUST BE GIVEN. SHOW FOR EACH ITEM QUANTITIES REQUIRED, USE TO WHICH THE MATERIAL OR EQUIPMENT WILL BE PUT, AND SUFFICIENT REASON TO ESTABLISH THE NECESSITY FOR THE REQUIRED USE IN VIEW OF THE SHORTAGE OF SUCH MATERIALS AND EQUIPMENT. 1300' 7 shallow wells 4" dia.

H. IF YOU HAVE MADE ANY OTHER APPLICATION OR PROPOSAL RELATED TO THIS PROJECT OR ANY PART THEREOF STATE: NAME OF AGENCY AND ADDRESS TO WHICH APPLICATION OR PROPOSAL WAS SUBMITTED AND DATE; ACTION TAKEN, AND DATE.

I. WILL PUBLIC UTILITY SYSTEMS BE REQUIRED TO CONSTRUCT ANY UTILITY SERVICE EXTENSIONS OR OTHER FACILITIES TO SERVICE THIS PROJECT. IF ANSWER IS "YES", SEE INSTRUCTIONS UNDER "SUPPORTING PAPERS TO BE FILED".

ELECTRIC POWER ☐ YES ☐ NO WATER ☐ YES ☐ NO GAS ☐ YES ☐ NO SEWER ☐ YES ☐ NO

J. ESTIMATED COST *(Do not include cost of selecting facilities)*

ITEM	FEDERAL FUNDS ($)	OTHER FUNDS ($)	TOTAL ($)
1. BUILDING AND OTHER CONSTRUCTION	None	$720.00	$720.00
2. EQUIPMENT (Total)		$525.00	$525.00
METAL WORKING			
OTHER MFG. OR PROCESSING			
OTHER EQUIPMENT		$525.00	$525.00
3. OTHER COSTS *(Excluding Land)*			
4. TOTAL COST *(Excluding Land)*		$1245.00	$1245.00

Dust Control at Charging Tanks

A. In charging the grinding tanks on the magnesia building a considerable amount of dust is created, due to emptying bags of material into the mixer. The operators work in this area at all times, and no other method of charging tanks can be used with our present equipment. The present system is inadequate to remove the dust and it is proposed to install a larger motor and drive on present fan used to exhaust dust laden air. The duct work and hoods will also be redesigned so that with the increased velocity all the dust will be removed from this area.

B. The revised installation will remove the dust beyond that point, so the dust will be removed before reaching the operators or other operators in this area.

C. The project must be taken care of immediately due to company policy of removing all health and accident risks and also that might endanger the health or welfare of the employees.

D. The present returning process is not provided with the removal of the dust created by the present returning process of charging the mixers with magnesia or carbon.

E This project is an alteration to the present dust system now installed at the magnesium powder tanks in the magnesium building.

F See attached print for layout showing details of alterations and construction of hoods and duct work.

G 1300# of sheet metal will be required to make the necessary alterations to the present dust system in altering hoods and pipes.

AUTHORIZATION TO BEGIN CONSTRUCTION AND/OR ASSIGNMENT OF ALLOTMENT SYMBOL AND PREFERENCE RATING FOR FACILITIES

(Not valid unless signed by WPB Recording Secretary)

EXPIRATION DATE _____

AUTHORIZATION - YOU ARE HEREBY AUTHORIZED, SUBJECT TO THE CONDITIONS DESCRIBED BELOW:

1. TO CONSTRUCT THE PROJECT DESCRIBED IN THIS APPLICATION.
2. TO INSTALL APPROVED MACHINERY AND EQUIPMENT
3. TO USE THE ALLOTMENT SYMBOL P-6 AND PREFERENCE RATING _____ TO PURCHASE APPROVED MATERIALS, MACHINERY AND EQUIPMENT.

CONDITIONS - THIS AUTHORIZATION IS SUBJECT TO THE PROVISIONS OF DIRECTION 1 TO CMP REGULATION 6 AND SCHEDULE A TO CMP REGULATION 6 WHICH ARE ATTACHED AND MADE PART OF THIS AUTHORIZATION, AND TO OTHER APPLICABLE WPB ORDERS AND REGULATIONS AND TO THE FOLLOWING SPECIFIC CONDITIONS:

1. THE WAR PRODUCTION BOARD IN ISSUING THIS AUTHORIZATION RELIED ON THE STATEMENTS AND REPRESENTATIONS MADE BY THE APPLICANT IN THE APPLICATION. FAILURE TO ABIDE BY THESE STATEMENTS AND REPRESENTATIONS CONSTITUTES A VIOLATION OF THIS AUTHORIZATION AND GROUNDS FOR ITS IMMEDIATE CANCELLATION. IN ADDITION, FAILURE BY THE APPLICANT TO ABIDE BY ANY OF THE CONDITIONS IMPOSED IN THIS AUTHORIZATION CONSTITUTES GROUNDS FOR ITS IMMEDIATE CANCELLATION.
2. UNLESS CONSTRUCTION IS STARTED OR INITIAL EQUIPMENT IS INSTALLED, WITHIN _____ DAYS AFTER THE ISSUANCE DATE OF THIS AUTHORIZATION, THE AUTHORIZATION TO CONSTRUCT OR ACQUIRE FACILITIES AND THE RIGHT TO USE THE ALLOTMENT SYMBOL AND PREFERENCE RATING IS AUTOMATICALLY REVOKED. APPROVAL OF THE WAR PRODUCTION BOARD MUST BE SECURED FOR EXTENSION OF TIME OR REINSTATEMENT OF THE AUTHORIZATION.
3. NO DEVIATIONS FROM THE PROVISIONS OF APPENDIX 1 OF SCHEDULE A TO CMP REGULATION 6 ARE PERMITTED.

Proposal for new dust system

B-269-J

JSZ010

FEB 1945

Dust control stock types

A. It is proposed to purchase a portable exhaust fan with all necessary motor and control apparatus, hoses and drums, to properly remove all dust created by line laying removal from trenches. The loosened lime is stored in hoppers and removed by opening doors and raking out the lime into wagons buckets previous to slacking. The burnt lime creates considerable dust when handled and due to the sliding action of being raked.

B. C. The dust created in handling the lime enters the operator, slacking the burnt lime. The coating of dust dries the skin of the operator and causes irritation. The skin cracks and becomes raw sore. It is difficult to get men to handle the lime due to the condition. With proper facilities provided the dust can be removed so that the operator will not be bothered with conditions this operation present.

D See A.

E This is a new adopted project

F Under process attached.

2 Fan and motor will be mounted on a platform skid with hoppers and necessary sheet metal hose and duct work connected to fan and to exhaust stack to properly remove the dust.

G Approx 100 ft of sheet metal will be required for distribution.
