MEMORANDUM

SUBJECT: Asbestos Strategy Document

FROM: Edward E. Reich, Director *EE Reich*
Stationary Source Compliance Division
Office of Air Quality Planning & Standards
Michael S. Alushin *M. S. Alushin*
Associate Enforcement Counsel for Air

TO: Air & Waste Management Division Directors
Regions II, IV, VI-VIII, and X

Air Management Division Directors
Regions I, III, V, and IX

Regional Counsels, Regions I-X

Attached is the completed strategy for the enforcement of the asbestos demolition and renovation NESHAP standard. The strategy incorporates Regional and Justice Department comments on the March 12, 1984 draft.

Enforcement of the asbestos NESHAP occupies a high priority at EPA and adoption of the components in this strategy will aid in that enforcement effort. The strategy should be initiated immediately, since the asbestos provisions are now enforceable in their entirety by EPA. The repromulgation appeared in the April 5, 1984 Federal Register.
