LEAD CONTENT OF PAINTS - INQUIRIES

Tabulated below are the eight inquiries concerning lead in F. & F. products which I have answered in the last two months:

1. American Hoist & Derrick Co., St. Paul Plant - Inquiry on general hazard and lead content of 5 paints (3 contain 19-22% lead on solids).

2. American Hoist & Derrick Co., Ft. Wayne Plant - Inquiry on general hazard and lead content of 26 paint products (10 contain 18-25% lead on solids).

3. Fruehauf Corporation - Inquiry on lead content of 15 paint products (5 contain 19-23% lead on solids).

4. Accessory Controls & Equipment Corp. - Inquiry on lead content of 93 Line Dulux® refinish enamels (gave range of 0.3-20% lead on solids).

5. Accusation by Chicago Paper of lead content in Du Pont spray paint.

6. Michigan Department of Public Health - Requested composition of filling adhesive (concerned about 1.4% lead when dry sanded).

7. Winkle Electric, Inc. - Employee complaint of lead poisoning while using Dulux® Machinery Enamel. Lead content of 0.4% on solids.

8. General Motors Corp. - Potential hazard of welding over lead-containing paint.

N38400

Following are some of the lead containing paints manufactured by Du Pont:

Line Number	Wt. % Lead on Solids
112-8366	22
112-9130	19
112-9145	22
93-082	23
93-24067	21
93-54701	23
93-75306	19
93-98165	21
183-6969	21
183-1226	24
183-3421	21
183-5146	23
183-5248	22
183-24598	23
183-71890	18
1081-9742	24
1081-9830	25
