BRAKE-O-VAC®

BRAKE ASSEMBLY CLEANER

*Stan -
this came
from chuck
Gennell -
I thank you
before*

Model 5000

The operator has full control of the air jet, the flexible boot allows maximum efficiency in directing the air.

The new Brake-O-Vac Brake Assembly Cleaner actually blows the dust and dirt off the brake assembly and into a self-contained dust bag.

Designed to help you comply with OSHA requirement 1910.93. Keep your shop clean - keeps your mechanics clean and happy - eliminates irritating and harmful dust from the air. Fits all cars with 9" through 12" assemblies.

Saves time. Pays for itself in clean up time alone. Cuts maintenance, painting and cleaning - protects service equipment and vehicles.

Protects employees' lungs and eyes from harmful asbestos fibers.

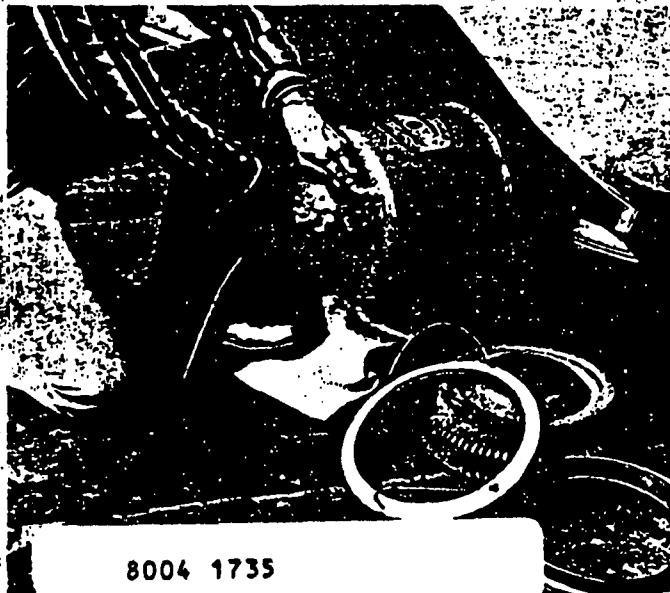

Operator does not need a respirator.

Extra bags available.

Ship Wt. 11 lbs.
