Subject: **Medical Surveillance - VCM**

As part of the Aberdeen Plants overall compliance with the VCM standard, and in this instance, 1910.1017 (k)(3), employees exposed to an emergency shall be offered appropriate medical surveillance.

As a result of the April 6, 1998 railcar incident which resulted in a release of VCM, and without regard to the use of respirators, you have been identified as an employee, with potential for exposure. Due to this potential, the opportunity for appropriate medical surveillance as defined in the corporate standard MED-501, is being offered to you.

Please indicate whether you accept or decline this offer, sign in the space provided below, and return to Chris Markerson.

If you elect to participate in this medical surveillance, contact Chris Markerson (ext. 3618) to assist in the arrangements with the medical clinic. You should have this surveillance work completed on April 8, 1998.

A handwritten signature in black ink, appearing to read "Chris Markerson", written over a horizontal line.

Chris Markerson
Safety & Health Manager

☐ I accept Condea Vista's offer to participate in the post-exposure medical surveillance.

☒ I decline Condea Vista's offer to participate in the post-exposure medical surveillance.
