Fluid Cans

June 12, 1944

I have noted with interest your memorandum of June 6 concerning the meeting held for discussion on handling cans of Fluid.

In reading over the memorandum of June 7 which you have addressed to all Division Managers on this subject, it seems to me however that there has been a decrease rather than an increase in the use of cans of Fluid in 1944, as approximately 750 cans were used during the first quarter of 1943 and 544 have been used during the first quarter of 1944.

J. H. Schaefer
