May 13, 1949

Dr. S. L. Rankin,
Medical Director,
Petroleum Chemicals Division,
E. I. Du Pont de Nemours and Co.,
Wilmington 98, Delaware.

Dear Doctor Rankin:

Your letter of May 11 arrived during Doctor Kehoe's absence on a trip from which he will return on May 20.

I am very certain that Doctor Kehoe will be glad to give any assistance he can in establishing whether [redacted] is suffering from lead poisoning, if Doctor Chaimov will communicate with him requesting his advice as well as containers for the collection of blood and urine samples. No doubt this could be arranged by the time he returns to the Laboratory.

Sincerely yours,

E. R. Fortlage, Secretary to
Dr. Kehoe
