

TITLE 35: ENVIRONMENTAL PROTECTION

SUBTITLE B: AIR POLLUTION

CHAPTER I: POLLUTION CONTROL BOARD

**SUBCHAPTER I: AIR QUALITY STANDARDS
AND EPISODES**

**PART 243
AIR QUALITY STANDARDS**

SUBPART A: GENERAL PROVISIONS

Section	Definitions
243.101	Preamble
243.102	Applicability
243.103	Nondegradation
243.104	Monitoring
243.105	Reference Conditions
243.106	Incorporations by Reference

SUBPART B: STANDARDS AND MEASUREMENT METHODS

Section	Particulates
243.121	Sulfur Oxides (Sulfur Dioxide)
243.122	Carbon Monoxide
243.123	Nitrogen Dioxide
243.124	Ozone
243.125	Lead
243.126	

Appendix A: Rule into Section Table
Appendix B: Section into Rule Table
Appendix C: Past Compliance Dates

AUTHORITY: Implementing Section 10 and authorized by Section 27 of the Environmental Protection Act (Ill. Rev. Stat. 1981, ch. 111 1/2, pars. 1010 and 1027).

SOURCE: Adopted as Chapter 2: Air Pollution, Part III: Air Quality Standards, in R71-23, 4 PCB 191, filed and effective April 14, 1972; amended in R80-11, 46 PCB 125, at 6 Ill. Reg. 5804, effective April 22, 1982; amended in R82-12, at 7 Ill. Reg. 9906, effective August 18, 1983; codified at 7 Ill. Reg. 13630.

SUBPART A: GENERAL PROVISIONS

Section 243.101 Definitions

a) Except as hereinafter stated and unless a different meaning of a term is clear from its context, the definitions of terms used in this Part shall be the same as those used in the Environmental Protection Act (Ill. Rev. Stat. 1981, ch. 111 1/2, pars. 1001 et seq.) (Act).

b) All terms which appear in this Part have the definitions specified by 35 Ill. Adm. Code 201 and 211.

Section 243.102 Preamble

a) Air quality standards are limits on atmospheric concentrations of air

contaminants established for the purpose of protecting public health and welfare. The levels of air quality designated by the standards are designed to protect against injury to human, plant or animal life and they are further intended to allow maximum enjoyment of life and property consistent with the intent of the Act.

b) The first use of our air resources is to sustain life. Air entering the respiratory tract must not menace health. Therefore, the air quality standards set must, as a minimum, provide air which will not adversely affect, through acute or chronic symptoms, the health of the community. Adverse health effects include not only the possible production and aggravation of disease, but also interference with bodily functions. The standards have also taken into account soiling, corrosion, vegetation damage and other human effects.

c) Primary ambient air quality standards define levels of air quality which are necessary, with an adequate margin of safety, to protect the public health. Secondary ambient air quality standards define levels of air quality which are necessary to protect the public welfare from any known or anticipated adverse effects of a pollutant.

d) The standards are more than goals. They are legally enforceable limitations, and any person causing or contributing to a violation of the standards is subject to enforcement proceedings under the Act. The standards have also been designed for use as a basis for the development of implementation plans by State and local agencies for the abatement and control of pollutant emissions from existing sources, and for the determination of air contaminant emission limitations to insure that population and economic growth trends do not add to the region's air pollution problems.

Section 243.103 Applicability

The standards in this Part are applicable throughout the State of Illinois, except as otherwise provided in this Part.

Section 243.104 Nondegradation

Existing ambient air quality which is better than the established ambient air quality standards at the date of their adoption will be maintained in its present high quality. Such ambient air quality shall not be lowered unless and until it is proved to the Illinois Environmental Protection Agency (Agency) that such change is justifiable as a result of necessary economic and social development and will not interfere with or become injurious to human health or welfare.

Section 243.106 Monitoring

Pollution levels will be determined by fixed or mobile sampling stations beyond the premises on
