

PFAS forum - Wirtschaftsrat

Online meeting 12-09-2023, 17:30 – 18:30

Participants

- Many representatives of German industry (see participant list)
-  DG GROW.

Notes:

- DG GROW orally outlined the state of play of the PFAS restriction and the role of the Commission.
- After the presentation there was some time for a Q&A. Several participants highlighted the importance of PFAS and more specifically fluoropolymers and the lack of alternatives. The current uncertainty is according to them stopping necessary investments. Also, many times it was mentioned that OECD have indicated that fluoropolymers, polymers of low concern are. GROW replied to the questions referring to the role of RAC and SEAC to consider the respective elements 'risks', 'economic impact' and 'alternatives'.
