Subject: Low water pressure

Good morning Sarah:

I hope all is well in your part of the world and wish you were also coming to the annual conference in Reno. I wanted to follow up on the low water pressure. James thinks they may be on a private well as there are water districts, the city and a lot of private wells in the area. If you can find what system if they are on a system, we will check into it further.

Have a great week and thanks,

Sam Wade
