SUBJECT HOURLY SAFETY COMMITTEE MEETING 8/30/83

REFERENCE

TO : E. P. Bailey OA-16

This is just a short note to let you know what a good job I thought Don Treleaven did in explaining the ammonia tank vessel inspection plan. He did an excellent job in describing what we've done and plan to do, and I believe the committee members' concerns were well addressed.

I'm sure you realize how sensitive an area this could become if the wrong type of information or rumors were let go without addressing up front. I personally feel that other members of supervision would learn from such a presentation. It certainly was beneficial to me.

Take Care!

Mark
