MR. DOBBELS: All right. Thank you. I just needed to know what it referenced. And will you give copies to the court reporter, please?

MR. BUTLER: Right. Yes.

MR. DOBBELS: Thank you.

THE DEPONENT: I believe it was an attachment to the bulletin 4.

Q (By Mr. Butler) That's my question. Does it look like that's, that's the new information that supersedes the 1975 bulletin?

In other words, I guess my question is, does it look like the first one came out in '75 and that this one here is the new, 4-A is the new information that's been added?

A No. They're both with the same date, and my understanding would be that it would be part of the same package.

Q Okay. But that information then, at least, it says it was new as of August 22 of '83?

A Well, the indicate -- from the indication on the document it would be that bulletin 4 supersedes bulletin 4 from 7-18-75 and that 4-A as an attachment is new.
