Hi Brian!

It is great to hear from you, I hope all is well with you and the rest of the OKLO team!
Thanks so much to the introduction to George.

George- It is nice to e-meet you. Thanks so much for your invite for Chris to join y'all in September at the Yotta Conference.

When you have a chance, can you complete the event form attached please?

Thanks much and I look forward to hearing from you.

Hi Chris,

Following up on our text exchange, I'd like to introduce you to George Rockett. He'd be thrilled to have you keynote the Yotta Conference this September. George is the founder of one of the most influential digital infrastructure media companies in the world, having shaped the data center industry for over 25 years through news, training, and events. His newest venture, Yotta, is focused on unifying the broader digital

infrastructure ecosystem with a strong emphasis on innovation and sustainability. Details are below.

Talk soon,
Brian

Hi Brian,

Further to our call last week, I would like your help in making contact with Chris Wright at the DOE, and his team, with a view to getting him to keynote the mainstage at [Yotta 2025](#).

The event is scheduled for the 8-10th September, 2025 at the MGM Grand in Las Vegas.

This year's program continues to be heavily focused on the intersection of AI and Energy and we will be playing to an audience of 3,500 data center and energy professionals that will include many of the industry's most senior executives. Last year we had 134 digital infrastructure CEOs in the room and the C-Level accounted for more than making the event a singularly important opportunity to connect with the leaders responsible for deploying \$100s billions into new US infrastructure.

Companies already participating include, AECOM, Constellation, Crusoe Energy, Digital Realty, DigitalBridge, Duke Energy, Equinix, Google, HP, KKR, Lambda Labs, McKinsey, Meta, Microsoft, Nvidia, Oklo, OpenAI, Oracle, QTS, their customers and their technology supply chains.

My hope would be to have Mark P. Mills, a big supporter of the Yotta project, interview Chris Wright on the mainstage to kick-off the energy program scheduled for the 10th September.

Your help in making initial contact and acting as a reference for the event is appreciated.

Regards,

George
