Mr. William Boyle
Plant Manager
William G. Krummich Plant
Monsanto Chemical Company
500 Monsanto Ave.
Sauget, Illinois 62201

Dear Mr. Heinz,

The Coalition for the Environment is planning a study and review of your Sauget, Illinois facility. Therefore, under the Right to Know Title III Superfund law, we are requesting that you provide us with the following information:

1. A site plan of the Krummich chemical plant that would show the location where chemicals are stored, underground tanks, above ground tanks, previous disposal areas, current disposal areas, waste transfer areas, proposed incinerators, current incinerators, boilers, dry chemical storage, emission stacks, steam release pipes, location of current NPDES discharge, location of proposed NPDES discharge, storm sewers, canals, railroad tracks, tank car sidings, material transfer areas, and roads.
2. Most current annual, monthly or quarterly inventory
3. An inventory of air emissions from the facility during the period January 1, 1984 to December 31, 1987
4. An inventory of water discharge emissions from the facility during the period January 1, 1984 to December 31, 1987
5. An inventory of all wastes incinerated during the period January 1, 1984 to December 31, 1987
6. A list of destinations where hazardous wastes are shipped
7. Destination, volume and mode of transportation of incinerator ash, scrap equipment, and traditional solid waste
8. Hazardous material plans and plume maps for hazardous materials stored at the facility

Title III! Max McCombs -
please coordinate our
collective response.

Bill

Sincerely,

William Reading
