B-H Brush Lacquer in Glass Jars

NEVER BEFORE have lacquers been offered you put up in glass jars! Each of the 18 attractive shades glistens in its crystalline container, making easy for you the selection of just the ones you want—from the actual lacquer itself in its true color.

Bottle can be set beside bottle, on your dealer's counter, and delightful color harmonies determined in advance. What you see in the jar, you'll see on the article when it is painted.

B-H Brush Lacquer is easy to work, too—acts like other paints you've used, but dries faster. And the jars make attractive vases when empty, especially when decorated in the new "trickle" finish. You will enjoy examining the

B-H Lacquer display at any of the dealers listed below.
