Re Raybestos-Manhattan, Inc., Group 8577-8, Locations Passaic, N. J.

Effective May 5, 1955, the contributory coverages of the "main office employees attached to the Manhattan Division" were extended to the employees acquired as of May 5th through the purchase of Invalite Division of Atlas Powder Co. (sales organization acquired).

This unit was acquired by the purchase from another company and was a "going concern." It has been absorbed into the Raybestos-Manhattan as a sales outlet and loses its separate identity. Employees were enrolled by the use of new employee announcement.

In connection with the extension the probationary period was waived, but the actively at work provision is force.

Listed below is the number of employees involved, coverages involved, and amount of insurance for each coverage:
