Dear 5.1.2e [redacted],

I had confirmation that your colleague 5.1.2e [redacted] will participate to the meeting. You will find below an update agenda including a new point on alternatives. Have a lovely week-end.

Kind regards,

5.1.2e [redacted]

Draft Agenda – Meeting with PFAS REACH restriction dossier submitters.

- Roundtable introduction
- Short overview of dossier submitters current work in assisting ECHA
- ECHA webinar and Questions & Answers from industry
- Introduction to the views of FPG
- Roundtable: comments from FPG members to the PFAS proposal
 - Proportionality of the restriction proposal
 - Persistency
 - Risk management options for fluoropolymers
 - Addressing fluoropolymers life-cycle
 - Niche applications
 - Alternatives
- Overview of current FPG activities

Kind regards,

5.1.2e [redacted]

Dear 5.1.2e,

That would be appreciated, if you could send the proposed agenda Thursday afternoon.

Thank you.

From the dossier submitters some might join, covering some aspects of the restriction.

Do not know yet who will finally join the call, from Audun I did know that he will join.

Kind regards,

Subject: RE: Meeting with FPG

5.1.2e,

I had the impression that you had the idea of having a meeting of approx. 1 / 1.5 hours between (some of the) dossier submitters and you, as FPG. Your current suggestion sounds like a bigger meeting than I assumed. In that case it would be important to know the exact goal of this meeting. ECHA is now in the lead and sharing information during meetings with dossier submitters may be interesting, but it is not something that can be taken into account for the consultation. The focus should be on submitting the information through this consultation. Postponing till May would probably work best, as that also leaves some time to discuss the exact idea between this more extensive meeting. I'll check whether a trip to Brussels is possible, also based on time and date.

Subject: RE: Meeting with FPG

Dear 5.1.2e,

I need to check with my members. I will come back to you as soon as possible. Eventually, we will have to postpone our meeting to May.

Would you be willing to come to Brussels? You were thinking of having a discussion between the FPG members and you in the morning and eventually to introduce some of our key downstream users in the afternoon to speak with you? Is it of interest for you?

I might see you at CEFIC event today.

Dear 5.1.2e,

Let me know which dates are convenient for you. We will be pleased to exchange with you and your colleagues about your proposal. Since last week, I am bombarded of questions and comments. It is very difficult for me to coop with all the requests received as I do not have all the answers.

Our proposal raised a high interest. We received more than 1.700 requests to participate to the webinar we organized to explain the restriction yesterday. I believe the webinar you organized in April is important. We will continue to promote it through our network.

Kind regards,

Subject: FPG - 13 February webinar

Dear 5.1.2e, RIVM colleagues,

I hope this email finds you well. You must be looking forward with some anticipation to the publication on 7 February of the PFAS REACH restriction! I will be travelling in the States on the 7th so will wake up to the publication being public!

I am delighted to see you have signed-up to the 13 February FPG webinar. As I write this mail to you, we have passed 1100 registrants for the event. As you can imagine the webinar is not going to go in to too much detail on the views of FPG to the proposal, but rather it is an opportunity to raise awareness of its publication, its content relating to fluoropolymers and indeed why and how stakeholders can get involved in the restriction process. Even so the chat function on Zoom will be open so you and all other participants can also follow feedback from those in the event. We will look to answer some questions that pop-up on the chat but will also follow-up after the call and look to answer by mail as many questions as possible.

FPG would be very happy to sit down with you in the coming weeks to share our thoughts on the proposal and to bring you up to date on the work we are doing for the restriction. You have indicated that this should be possible after the official publication of the proposal in March. Would the week of 3 April be possible for example? We would be delighted to welcome you to Brussels, or we could travel up to Bilthoven – we would appreciate the meeting being face to face. If others from the other 4 countries would also like to join (in person or online) we would also welcome that opportunity.

We are also talking with 5.1.2e and colleagues in the EC to find a suitable date to do the same.

Coming back to the webinar, we will reference RIVM in our presentation. We would like to mention we are in touch with Member States and that the dossier submitters will participate at ECHA SEAC and RAC meetings in the coming months. We will be mentioning that MS are stakeholders and can also respond to the public consultations.

I look forward to hearing from you, and to our continued engagement in the coming months.

Best regards,
