PAINT PRODUCTION CHANGES

Allan K. Adams, supervisor of paint and vehicle production since 1955 retired December 31. Richard C. Savage, who was appointed production manager of the paint division in January 1966 will supervise the production of paints and vehicles, while Raymond L. Whitney, who was named technical director of the paint division in January 1966 will handle direction of the development and control laboratories. Both are located at the New York office and report to Phillip C. Muccilli, general production manager for the Company.
