Subject: Bulk Asbestos Determination

At your request, a bulk sample of material labelled, "Aeroneutronic Tester - TiO_2 " was analyzed for asbestos content in the Ford Industrial Hygiene Laboratory. Based on the results of an asbestos "spot-test" it is concluded that the sample contained no asbestiform material (detection limit is one percent).

If there are any questions, contact the writer at 33-78955.

M. J. O'Brien
Senior Industrial Hygienist
