

WINDSOR MINERALS INC.

F1228-01
SCANNED.

Windsor, Vermont

June 20, 1977

Subject: TSCA

TO: FILE

I spoke today to Dr. Semeniuk at EPA about talc and Appendix "A".

He said that they have become aware of the problem of mixed mineral materials and that there will be a revised regulation issued for comment in July with final regulations issuing in September.

He believes there will be a broad classification for ores which will not require reporting.

I offered him any assistance or comment that he might want.
