ANSWERS TO INTERROGATORIES
AND
RESPONSE TO REQUEST FOR PRODUCTION OF DOCUMENTS

Sheffer v. Newport News Shipbuilding and
Dry Dock Company, et al., Circuit Court
for the City of Newport News, Virginia,
Case No. 6419-S

PRELIMINARY STATEMENT

The following responses are provided by defendant, Raymark Industries, Inc. ("Raymark"). On June 28, 1982, Raymark merged with and acquired the assets of Raybestos-Manhattan, Inc. ("Raybestos"). For the parties' convenience, the designation ("Raymark") will be used throughout these responses with respect to matters occurring both before and after the merger of Raybestos into Raymark.

- 1(a)-(j). Raymark states that the information which it has gathered to date concerning workers' compensation claims does not reflect stages of asbestosis or pneumoconiosis. With respect to the information which is available to Raymark, see Rider A.
- 2(a)-(j). See response to Interrogatory No. 1(a)-(j).

RESPONSE TO REQUEST FOR PRODUCTION OF DOCUMENTS

1. Raymark objects to this Request for Production of Documents because it is overly broad in that it seeks documents which are neither relevant nor reasonably calculated to lead to the discovery of admissible evidence, it is unduly burdensome and oppressive and it seeks information beyond the scope of that referred to in the Court's ruling of March 14, 1983. Without waiving the

foregoing objections and subject thereto, Raymark states that to the extent it has documents of the type described in this Request available, copies of those documents are located in a document depository at the offices of Pitney, Hardin, Kipp & Szuch, 163 Madison Avenue, Morristown, New Jersey 07960. The documents were gathered from Raymark's facilities around the country. Upon reasonable notice, counsel may review those documents at the document depository in Morristown, New Jersey.

ANSWER TO INTERROGATORY NO. 1(a)-(j)

Raymark's files located as of January 1, 1983 reflect that the following employees (listed by plant) filed Workmen's Compensation claims alleging asbestos-related disability. Those listed include cases in which diseases related to asbestos exposure were alleged in claimants' papers, referred to in medical reports, or found in an adjudicative hearing, and in which claimants received disability payments pursuant to award or settlements.
