HOY A. CRANSTON
DIRECTOR

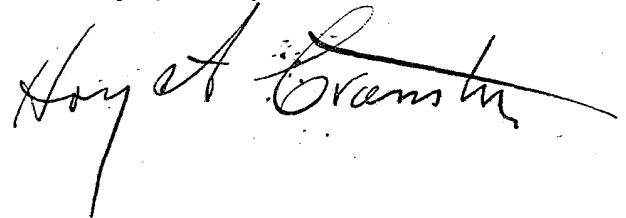

Robert A. Kehoe, M. D.
Kettering Laboratory of Applied Physiology
Eden Avenue
Cincinnati, Ohio.

Dear Dr. Kehoe:

The specimens arrived safely. Before proceeding with the polarographic analysis I should like to know the present composition of the sample and whether the total amount represents 100 c.c. of urine or whether we should take an aliquot for this amount.

I am sorry to bother you about the above but I am particularly anxious to get as close a check as possible, and I did not wish to spoil any of the samples.

Sincerely yours,

A handwritten signature in dark ink, reading "Hoy A. Cranston". The signature is written in a cursive style with a long horizontal line extending from the end of the name.
