TWO WAYS TO CHECK YOUR FLUID SAMPLES

MILT TECHNEE

1.

Send Your Samples To: Findett Service Company, for analysis
Route 1, Box 13
Elm Point Road
St. Charles, Missouri 63301
314-723-0240
9-1

- Uniform analytical and reporting procedures make it easy for you to establish a regular sampling program.
- Fast, efficient service from a company experienced in fluid analysis.
- Equipped to give in-depth analysis covering:

  Specific Gravity (not generally necessary for Therminol®)
  Viscosity (not generally necessary for Pydraul®)
  Acid or Neut. No.
  Moisture
  Action Steps Needed

For more information
see the enclosed Findett Service &
Analysis form and price schedule

2.

Many customers find it convenient to do their own sampling. Please write for standard analytical methods for determining:

- Specific Gravity (not generally necessary for Therminol®)
- Viscosity (not generally necessary for Pydraul®)
- Acidity
- Moisture

An equipment list is included in each analytical procedure.
