As explained to Carl Glaser in a recent phone conversation, I have received copies of letters sent to your offices by Monsanto referring to various Variation Orders, i.e., Variation Orders 18 thru 21 which we should record via Change Orders to bring the contract record up to date.

The last Variation Order of record is Number 17 recorded by Change Order Number 14, dated March 27, 1978.

Please advise as to when endorsement pertaining to Numbers 18 thru 21 can be expected.
