CHARLES E. WILSON
PRESIDENT

April 9, 1946

The Hon. Henry B. Wallace
Secretary of Commerce
Washington, D.C.

Dear Mr. Wallace:

I am glad to advise you that on April 8, your Policy Committee on Standards met to formally receive and consider all phases of the various points and enumerations of policy made by you for your department as contained in your letter of February 8 to this Committee.

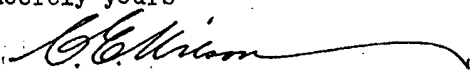

Your Committee carefully noted your comprehensive analysis of your department's attitude and resultant policy statement and wish to congratulate you on the broadness and deep consideration you have given to this Committee's recommendations embodied in their original report of June 1 and following report of December 22, 1945.

The Committee especially commends your recommendations of a joint conference committee of the A.S.A. and certain groups of your department as set forth by you. We have been advised that this step has already been taken and the first preliminary meeting has been held with very beneficial results tending towards the goal suggested by you.

This Policy Committee herewith gladly accepts your request that this Policy Committee on Standards continue to function as an advisory group to you and to the Department of Commerce. The Committee agrees that the experience gained by it during the last year should and will be of great value in dealing with additional problems which will arise in this growing field of standards.

Accordingly the Committee is actively proceeding to organize itself for constructive procedure in an endeavor which will insure maximum use and benefit of that past experience.

Sincerely yours

CHAIRMAN
POLICY COMMITTEE ON STANDARDS.
