Dear Sirs

ATTENTION DR. HASMUKH SHAH

We are doing a science fair project on the effects of vinyl chloride on rats. It is our intention to find out if vinyl chloride can cause cancer in these experimental animals. Therefore, if available, we would like information on the study of techniques for detection of cancer and any other information you might have on this research. We also need to obtain the chemical, vinyl chloride. An address of a manufacturer of vinyl chloride would be helpful.

Your prompt attention would be greatly appreciated.
Thank you.

Sincerely yours

Christy Habermehl
