Your kitchen can be BEAUTIFUL too!

The *modern* way is to make the kitchen as attractive and *liveable* as other rooms of the house. With warm-toned walls and woodwork, the gleam of porcelain and nickel seems brighter; gay curtains appear more colorful; the entire room takes on a new and unexpected charm.

You can make your kitchen attractive without neglecting practical features, by painting the walls, woodwork, built-in fixtures and furniture with FULLERGLO. . . . . .

This satiny finish, despite its delicate pastel shades, is always easy to keep fresh and clean. Even indelible pencil marks can be washed from the FULLERGLO surface. . . . For large jobs, it is best to employ a Master Painter, but you can easily do the smaller jobs yourself. A descriptive card, showing the many beautiful FULLERGLO tints, may be obtained at your Fuller Dealer's. His name appears below.
