**Subject: Identification of All Processes Involving Material  
Containing Asbestos Fibers**

In accordance with your request, the following manufacturing and maintenance operations utilize materials containing asbestos fibers:

- o Asbestos gaskets are used on compressors and furnaces for joining "hot" pipes.
- o Asbestos curtains are used to hold gas atmosphere inside annealing furnace.
- o Boiler gaskets are insulated with asbestos.
- o Hot water pipe insulation.

A total of three employees (maintenance mechanics) are exposed to these asbestos fibers. The frequency of exposure is approximately once every three months.

Should there be any questions, please contact the undersigned.

M. D. Kindell
