Mr. J. A. Bacchetti
Environmental Coordinator, New Projects
General Electric Company
Schenectady, New York 12345

As the attached letter indicates, I am pleased to
Dear Jerry: representation to the Illinois Chapter of the
American Institute of Industrial Engineers. In this
In accordance with your request to me last Friday after
our presentation to you and other GE personnel, I enclose
a draft copy of the "National Emissions Standards for
Asbestos". This draft was prepared on March 15, 1972. I understand
that the final document, which is expected to be published
in the FEDERAL REGISTER on February 15, 1973, will only
have minor changes to this draft.

This draft was prepared on March 15, 1972. I understand
that the final document, which is expected to be published
in the FEDERAL REGISTER on February 15, 1973, will only
have minor changes to this draft.

The only State that has any emission standards is Illinois.
A copy of their regulations is also enclosed.

Very truly yours,

Edmund M. Fenner, Director
Environmental Control

Dear John:

We in Johns-Manville appreciate the opportunity that General Electric gave us to make an asbestos and health presentation to your group.

Because our presentation took longer than anticipated and drastically reduced the time available for questions and answers, some of your people may still have unanswered questions. Therefore, we would like to contact each of the GE participants directly to determine if they have further questions or would like additional information.

In order that we may do this, we need a list of names of those who attended the meeting, their titles and mailing addresses. I would appreciate it if you would send me such a list.

Thank you again.

Very truly yours,

Edmund M. Fenner, Director

Mr. Haines V. Reichel
General Electric Company
316 Robinson Building
Elyria, Ohio 44035

Dear Mr. Reichel:

Subsequent to our telephone conversation of last week I checked with our Sales Department in an effort to find out who was supplying the asbestos mat for the Class AAA laminate to your Coshocton Plant. I discovered the only manufacturer and supplier of this mat to General Electric is Raybestos-Manhattan.

Our sales people then discussed the situation with Mr. Milton Q. Scowcroft, Raybestos-Manhattan's Sales Manager for this product. Mr. Scowcroft was given the names of Mr. Richard Gaertner, Engineering Manager at Coshocton and Mr. Robert L. Morris, National Sales Manager in Chicago. Mr. Scowcroft intends to contact these people, I presume, in an effort to persuade them not to stop the manufacture of the product.

Very truly yours,

Edmund M. Fenner, Director
Technical Relations
