Mr. J. H. Schaefer
Ethyl Gasoline Corporation
Chrysler Building
New York City
New York

Dear John:

Dr. Machle and I have discussed the matter of the blending plant and have gathered together some information which we want for the purpose of discussion with you and Stecker. It would be convenient for us both to be in the east on January 16th, and we would like for you to arrange a meeting on this date, if possible.

We are somewhat in doubt about whether the meeting should be in New York or in Wilmington, or at the plant, particularly because we do not know whether or not Mr. Stecker would like to have Dr. Gehrman or Dr. Evans, or both of them at the meeting. Obviously we do not like to suggest to him what he should do in this matter, and we would not initiate any move to have them present. So far as I am concerned, it would be more convenient for me if the meeting were to be in New York, but Bill and I will do whatever you and Stecker think best.

I would appreciate it if you would let me know at your early convenience, just how this can be worked out.

Cordially yours,

RAK:is

Robert A. Kehoe, M.D.
