

FISHER BODY NORWOOD DIVISION

GENERAL MOTORS CORPORATION

NORWOOD, OHIO

June 18, 1935.

Dr. R. A. Kehoe,
Kettering Laboratory of
Applied Physiology
Eden & Bethesda Ave.,
Cincinnati, Ohio.

Dear Doctor:

The enclosed filter is taken from a
respirator which the employee says he has used for one week.

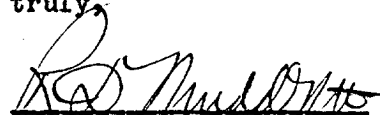

The operation consists in discing down
lead seams, the disc containing circulating water, which we
believe cuts down the lead hazard.

We would appreciate it if you would
determine the amount of lead present and advise us.

We will let you know later how many hours
this filter has been used.

Kindly send your bill for this service to
Fisher Body-Norwood.

Yours truly,

R. D. MUDD, MD
