Regulatory Programs
Bldg. 306, BARC-East
Beltsville, MD 20705

Dear Mark:

See Attached
In a letter dated September 21st to you from Connie Dillon, reference was made to our customer, Jarrow Products. Please note this request also ties in with Norlake Inc. You should have received the letter from us and the confidential formulation.

We supply the Geon 87438-021 compound to Jarrow Products who in turn extrude profiles for Norlake Inc. Your prompt evaluation of the composition is appreciated.

Sincerely,

THE BFGOODRICH COMPANY
