CALIFORNIA RESEARCH CORP.  
Letterhead

Ethyl Corporation  
100 Park Avenue  
New York 17, New York

Gentlemen:

Please refer to our agreement dated September 5, 1958 relating to "Said Additives" and "Said Composition". We wish to advise you now within the Research Period of the agreement that we are planning to proceed with a program of field testing.

Observations scheduled for the next few weeks are expected to indicate that there is no unexpectedly great health hazard which might not be adequately controllable.

Your cooperation in connection with the development of the gasoline composition of the agreement has been excellent and most  
ated by us.

/signed/ - J. L. Cooley
