MESSAGE FOLLOWS :

Dear Bob

IRI PROJECT 951245 - FOOD CONTACT MATERIALS: POSITIVE 'STS IN EUROPE

I have just received the most recent EC list (cover page attached). The lists for France and Germany have been ordered but I understand there is quite a long delivery time for these documents (especially for Germany).

Can you send me the composition details of Geon 87697 so we can check it against the EC lists.

Kind regards...

C P Patrick, PhD
