DATE January 11, 1972 cc

SUBJECT Status Review Meeting
Dielectric PCB Policy,
Status of Hold Harmless Letter, Etc.
Thursday, Jan. 13, 2:30 P.M.

TO : W. R. Corey
R. B. Chapman - G5ND
R. C. Hellwig - G5NF
J. F. Stapleton/P. Park - C1NA

I am sure you will all agree that it is important that we review our exact customer status on the "hold-harmless" letter prior to Friday evening. I have reserved conference room C-228N.

I feel it is important we all get together to review in detail each of these letters I have received, as well as the status of accounts. We must reach a decision by Friday afternoon as to our future course of action. I am receiving more information daily which must be reviewed by the Committee.
