Ms. Connie N. Dillon
The BF Goodrich Company
6100 Oak Tree Boulevard
Cleveland, OH 44131

Dear Ms. Dillon:

Thank you for your September 21 letter about your material composition sent in support of Jarrow Products Inc.

We are unable to complete our evaluation of your Geon 87438-021 until we receive more information from you or your suppliers on the following ingredients:

Butyl Tin Stabilizer - We are unable to locate the ingredient identified as CAS #67854-64-7 in our sources. Identify this material by complete chemical name or composition.

*Mark 1939
(Burn Reaction)*

All major and minor constituents must be listed by proper chemical name and CAS registry numbers when available. If this information is unavailable to you, your supplier may send it directly to us. Chemical formulations and other proprietary information are held in a confidential file and used only to evaluate the material.

When we receive this information, we will gladly complete the evaluation of your material for use in federally inspected meat or poultry establishments.

Sincerely,

Mark J. Reo, Chemist
Compounds and Packaging Branch
Product Assessment Division
