Dear Colleagues,

We wanted to take a moment to extend our thanks for your participation in our seminar on alternatives to PFAS (per- and polyfluoroalkyl substances) on 30 January. To see so many of you participating in person and online enriched the discussions and encouraged the speakers, who represented SMEs that successfully replaced PFAS in applications that are critical for reaching the EU's goals for the energy or digital transitions.

The collective expertise that these speakers brought to the table contributed to our exploration of viable alternatives to PFAS and the broader conversation on the PFAS group restriction.

As promised, we are pleased to share the presentations from the workshop with all participants with the permission of the speakers.

Please feel free to share them with your colleagues or anyone who might benefit from the insights shared during the seminar.

Once again, thank you for your participation and interest.

If you have any further questions or feedback, please do not hesitate to reach out.

Kind regards,

The organisers:
