Dear Mr. Melhus:

The above captioned case has come to my attention.

We are on a computerized diary system and this case was assigned to one of our field coordinators for the purpose of conducting the audit on November 8 and the computer diary date was November 21, 1983. For some reason, the case never came up on our computer runs. We found the file by accident and contacted our coordinator to find out why the audit had not been done. She never received the material to conduct the audit.

We are re-copying the material and sending it to her and would also request you forward a medical authorization signed by Mr. Price so we might have a copy of his hospital chart to compare to the hospital bill.

My sincere apologies for the error, when we are in receipt of the medical authorization we will conduct the audit and forward our recommendations.

Very truly yours,
REHABILITATION COORDINATORS INC.
