To: All Members of the Lead Health and Safety Committee

Attached for your information is a copy of the statement given on behalf of the Lead Industries Association by Felix E. Wornser to the Senate Subcommittee on Air and Water Pollution on Thursday, June 9.

This is being sent to you as a matter of information. We were requested by Senator Muskie to present this statement as part of his hearings on the general subject of air pollution. Lead was only one of the many materials and metals considered by the Subcommittee.

Very truly yours,

Don O. Fowler
