Dear 5.1.2e Dear 5.1.2e

Firstly, wishing you a happy new year and all the best for the year ahead!

We have recently learnt that the 5 authorities working on the upcoming PFAS restriction under REACH decided to conduct another study: on the uses of PFAS in the electronics sector. 3M would be interested to participate in this study as a supplier of direct PFAS and PFAS-enabled products to the electronics sector.

I would appreciate if you could share further information on how we can participate, what are the questions and what is the deadline, or direct us to the consultant chosen to conduct this study.

Thank you very much in advance.

Best regards, 5.1.2e
